

Job Advert

Our clients' world-class brands bring people together – at the theatre, concerts, exhibitions, and sporting events. After a year like no other, we are expanding our media team to help us reconnect audiences to the bursting world of live entertainment.

Our campaigns entertain and engage ticket buyers through innovative, data-driven creative storytelling and this is your perfect chance to expand your horizons and play an important role in the future of the entertainment industry.

The Role

We are looking for a Web Developer to join our creative team at Dewynters. We work with agile and continuous deliveries. Our customers demand a range of digital offerings across their digital channels. We set high standards on accessibility and performance in our systems and we have an organization with open discussions, where our employees are encouraged to take their own initiatives and responsibility.

Our unrivalled creative experience and passion, together with our strategic, digital and data-driven expertise, ensure we always deliver the very best campaigns and results for our clients.

This is an opportunity for someone like you who is looking to lean into client conversations, and deliver across integrated solutions in the digital creative space.

About You

You will support Dewynters' existing busy Digital team in building and creating a range of web applications for our wide variety of clients. Creative web developer who wants to work with development and architecture in a team with close cooperation with other developers, designers and account managers who has a solid background in development and experience of service-based architecture.

Technically and analytically minded you can solve problems and autonomously create solutions. You are at the forefront of emerging digital trends and can articulate this for your clients.

You will lead project with clients, confidently working in development teams with the ability to inspire, lead and support others technically. As a team player who has a positive and collaborative approach.

Looking for skills in the following:

- Modern HTML, CSS, JavaScript
- SASS
- JavaScript libraries (jQuery, React, Vue)
- Bootstrap 4
- Gulp / Webpack / NPM
- Git
- PHP
- MySQL
- API Integration
- WordPress
- Static site generators (Gatsby)
- Server side technology
- A good working knowledge of the Adobe Creative Suite

What can we offer you?

We offer a whole array of benefits including:

- Competitive salary
- 20 days holiday rising to 25 days holiday
- Flexible working
- Private health insurance
- Career development and training opportunities
- Enhanced Maternity and Paternity package
- Life Assurance
- Season ticket Loan
- Cycle2Work Scheme

- Complimentary theatre/entertainment tickets
